

BACKYARD STORAGE

SOLUTIONS

The background of the entire page is a faded, sepia-toned photograph showing several men engaged in building sheds. Some are on roofs, others are on the ground with ladders, and one is working on a wall. The scene is a construction site for small, simple structures.

BUILDING SHEDS...

Rebuilding lives.

Our sheds are produced by
a local Bible based
men's counseling center
where men come for
help to get their lives back in
order after a life of
wrong choices.

The sheds you see here are
built by the residents of the
program and the sale of the
sheds goes to support the
costs of the program.

Thank you for your support!
